NonStopAuction Seller Policy

Last updated: 6 October 2026

1. Seller eligibility

Sellers must be at least 18 years old.

Sellers may be private individuals or businesses.

Business sellers must identify themselves accurately as businesses where requested by NonStopAuction.

You must provide accurate information during Stripe onboarding and any identity or tax verification process.

2. Stripe verification

Sellers must complete Stripe verification where required.

NonStopAuction may prevent listing, selling or payout access until required Stripe verification has been completed.

Stripe may request identity, business, tax, bank-account or other information.

NonStopAuction does not control Stripe's verification requirements.

3. Accurate listings

Every listing must accurately describe:

- what is being sold;
- condition;
- quantity;
- included accessories or components;
- known defects;
- material limitations;
- photographs where appropriate;
- delivery arrangements;
- any other material information a reasonable buyer would require.

Sellers must not deliberately hide defects or materially misleading information.

4. Authenticity

Counterfeit goods and goods which infringe another person's intellectual property rights are prohibited.

Sellers must only list authentic goods where authenticity is relevant.

NonStopAuction may request evidence of authenticity where reasonably necessary.

5. Ownership and lawful possession

You must have the right to sell each item you list.

You must not sell stolen goods or goods that you know or reasonably suspect were unlawfully obtained.

6. Delivery

The seller is responsible for delivery.

The seller must comply with the delivery timeframe stated in the listing.

Sellers should use tracked delivery for higher-value items.

Where an item is lost and the seller cannot establish delivery, the seller may remain responsible for the transaction.

Sellers should retain proof of posting and tracking information until the transaction is fully resolved.

7. International sales

Where sellers permit international delivery, sellers are responsible for complying with applicable export, customs and shipping requirements.

Buyers may be responsible for import taxes, duties or customs charges where applicable and where properly disclosed.

Sellers must not knowingly ship prohibited goods across borders.

8. Fees

NonStopAuction currently charges a seller fee of 10% of the final hammer price.

There are currently no additional NonStopAuction buyer fees.

9. Payouts

Payout timing is determined according to the seller's Stripe verification status and sales history.

Current target payout periods are:

Unverified seller: up to 30 days.

Identity verified seller: up to 7 days.

Identity verified + more than 10 sales in the preceding 30 days + no negative feedback: up to 24 hours.

Payouts may be delayed regardless of these targets where there is an active return, dispute, fraud investigation, Stripe restriction, chargeback or other legitimate reason.

10. Seller responsibilities

Sellers are responsible for:

- complying with applicable laws;
- paying applicable taxes;
- complying with consumer legislation where applicable;
- providing legally compliant products;
- fulfilling completed sales;
- handling legitimate returns;
- responding to buyers;
- providing accurate delivery information;
- complying with Stripe's applicable requirements.

11. Prohibited seller behaviour

Sellers must not:

- bid on their own items;
- use another account to artificially increase bids;

- sell counterfeit items;
- sell stolen goods;
- manipulate reviews;
- create multiple accounts to evade restrictions;
- deliberately fail to fulfil successful auctions;
- falsely claim that goods were dispatched;
- manipulate tracking;
- misuse refunds;
- move transactions off-platform for the purpose of avoiding fees or platform safeguards;
- circumvent account restrictions.

Repeated or serious violations may result in permanent suspension.

12. Tax and regulatory reporting

Sellers are responsible for their own tax obligations.

NonStopAuction may be legally required to collect seller information and report information concerning sales and seller income to HMRC or other tax authorities.

Seller information may therefore be collected and retained even where a seller does not believe they have a personal tax-reporting obligation.
